

Digital printing meets ActionCOACH's needs.

manuals2go has been chosen by ActionCOACH to print manuals for its students.

ActionCOACH offers strategic coaching to businesses to help them implement leading innovations in sales, marketing and management.

We print a selection of ActionCOACH's manuals which consist of various different sections of information and forms, divided by coloured tabs and bound in A4 ring-binders.

The manuals are ordered on the 'next day service' as required to avoid waste from printing too many.

There are obvious cash flow benefits of ordering printed material only when it is required - usually after receipt of fees from the students - rather than printing a stock room full of books at the start of the year.

We also provide ActionCOACH with a secure online area which allows the company to access and amend its artwork stored on the manuals2go system. This saves time and money because we then print directly from the artwork which our customer has created.

Jim Herrington at ActionCOACH said:

"We have been working with manuals2go for a number of years. Over that time it has saved us thousands of pounds in print costs compared with conventional printers. It supplies us with high quality manuals which meet all our needs."

manuals2go meets Dialogue Media's needs

manuals2go has been chosen to print for Dialogue Media, a publisher of business opportunity and self-help educational programmes.

We produce a selection of Dialogue Media's manuals which aim to help people with debt elimination and management. We print and wire-bind five different manuals which all come with their own specific CDs. The manuals are shrink wrapped and sent out directly to Dialogue Media's customers.

Peter Segenburger at Dialogue Media, said:

"We have been working with manuals2go on our debt management project, being supplied with high quality manuals and CDs with the added benefit of on-demand ordering."

manuals2go in Frontline for magazine distribution

Frontline - the UK's largest magazine distributor - relies on **manuals2go** to ensure affordable, high quality printing of its annual product files.

Peterborough-based Frontline sells and distributes over 160 titles from leading publishers, selling nearly 8 million copies every week through 55,000 retail outlets.

Showing all Frontline's facts and figures for the past year, the product files are full colour single-sided A4 landscape wiro-bound documents, each containing 60 pages and include acetate and backboard.

The files are printed on a short run basis of 50-100. For Frontline, being able to order printed material only when it is required brings obvious cash flow benefits in comparison to printing a large batch. The fast turnaround offered by our digital print technology, allied to our commitment to high quality output, provides an unbeatable print solution.

We also provide Frontline with a secure online service which allows the company to access and amend its artwork stored on the manuals2go system. This saves time and money, as we then print directly from the artwork which Frontline has created.

Melanie Hyde at Frontline said:

"We have saved a notable amount of money since working with manuals2go. The turnaround times not to mention quality meet all our needs - we even allow manuals2go to carry out final pre-press quality control checks on our artwork, such is the degree of trust that exists between us."

manuals2go helps Control-F beat digital crime

manuals2go is ensuring affordable, high quality printing of training course materials for Control-F Digital Forensics - helping to defeat criminals who think they have destroyed evidence of calls on their mobile phones.

Control-F is a mobile phone forensics training company offering a wide range of courses and consultancy services aimed at specialists in the recovery of deleted data from mobile phones.

Course materials consist of different A4 manuals ranging in size from 24 to 42 pages. All are wire-bound with acetates and backboards - the latter in three different colours to make identification easier.

Control-F orders a minimum of 13 manuals at one time using our 'next day' service. Manuals are delivered direct to the client on a specified date and to the address of its choice.

For Control-F, being able to order printed material only when it is required brings obvious cash flow benefits in comparison to printing a large batch. The fast turnaround offered by manuals2go's digital print technology, allied to our high quality output, adds up to an unbeatable print solution.
